

Kimberly began her work in stagecrafting for the Arts Center back during their 2016 production of Shrek: The Musical. She has since worked on many of Selma's productions including Gentleman's Guide, Puffs, Beauty and the Beast, and many of the CKP shows, etc. Her work will also be featured in a few upcoming horror films. Kim is grateful to everyone involved at SAC and especially to her husband Jon and their children for their encouragement and love.
